English Typing 40 WPM

PROFESSIONAL SUMMARY

MCA student and full-stack Web Developer with hands-on experience building responsive, database-driven applications using PHP, MySQL, React, TypeScript, Java (Spring Boot), Python and Flask. Skilled in REST APIs, authentication, admin dashboards and AI integration with the Gemini API. Has built 8 end-to-end projects across AI chatbots, job portals, e-commerce, booking and management systems.

CAREER OBJECTIVE

To secure a Web Developer / Full-Stack Developer role where I can design and build responsive, user-focused web applications, apply modern frameworks and AI-driven solutions, and keep growing while contributing to impactful, real-world products.

EDUCATION

Master of Computer Applications (MCA)

MIT Chhatrapati Sambhajnagar | 2025 - Present

Pursuing

B.Sc. Information Technology

MIT Chhatrapati Sambhajnagar | 2022 - 2025

76%

Higher Secondary Certificate (HSC)

Maharashtra State Board | 2022

62.83%

Secondary School Certificate (SSC)

Maharashtra State Board | 2020

PROJECTS

AI Chatbot with Gemini

Python | Streamlit | Gemini API | SQLite | ReportLab

AI chatbot with secure user authentication, contextual conversations powered by Google Gemini, PDF upload and summarization, saved chat history, and chat export to PDF.

Swad Sangam - Restaurant Website

React | TypeScript | Vite | Tailwind CSS

Modern restaurant website with menu, table booking with seating selection, cart management, customer reviews, special offers and a staff dashboard, fully responsive.

Cafe Management System

PHP | MySQL | JavaScript | Python | Flask | XAMPP

Full-stack cafe application with an integrated AI Cafe Assistant. Features registration and login, menu search and category filters, cart, online ordering, order tracking, billing and a complete admin panel.

JobConnect - Online Job Portal

PHP | MySQL | JavaScript | XAMPP

Full-stack job portal with Admin, Company and User modules covering job posting, job applications, resume upload and application status management.

Foodie - Online Food Ordering System

PHP | MySQL | HTML5 | CSS3 | JavaScript

Food ordering platform with menu search and filtering, cart and quantity updates, checkout, order confirmation, user authentication and an admin panel for food, users and orders.

Digital Library Management System

PHP | MySQL | Bootstrap | JavaScript

Library system where students register, search, issue and return books, while admins manage books, users, categories, reports, image uploads and PDF books.

Railway Reservation System

PHP | MySQL | JavaScript | XAMPP

Train search, ticket booking, booking management and ticket/profile views for users, with an admin dashboard to manage trains, users and bookings.

Bank Management System

Python | Flask | SQLite | Bootstrap

Web-based banking application for managing customer accounts, banking operations and transaction records.
